- 1 The author describes a set of Late Sasanian drachmas showing a bearded bust with, on the obverse, the name 𐬭𐬀𐬎𐬭 and, on the reverse, the standard reverse types used since the 11th regnal year of 𐬭𐬀𐬎𐬭 II. Since their dates range from year 2 to 10, they were not issued during the reign of 𐬭𐬀𐬎𐬭 II. The author suggests that their issue occurred during the reign of the last Sasanian King of Kings, Yazdgerd III (632-651) and continued well into the Arab period.
