1. The director and editorial department of *Les Carnets de l'ACoSt* are pleased to announce the online publication of volume 24. With this issue, a new protocol is being inaugurated whereby accepted submissions are published on an on-going basis with an annual deadline of December 31. Subsequent annual volumes will have submissions published as soon as they accepted between January to December without interruption, thus enabling a more dynamic and rapid publication.
2. Volume 24 of *Les Carnets de l'ACoSt* opens with 6 initial articles. Additional contributions can be submitted from now until December 15 for publication online by December 31. Each article is also accessible by a free downloadable pdf, formatted and edited by the publication's editor. This new format guarantees an improved layout, particularly for illustrations, in line with the requirements of Open Edition, the platform of *Les Carnets de l'ACoSt*.
3. This change is also accompanied by new editorial recommendations for authors, which will shortly be available for download on both the journal's website and the website of The Association for Coroplastic Studies (<https://terraccottastudies.org>).
4. We anticipate that this change will give new impetus to *Les Carnets* and enhance its appeal to specialists and students alike.
