### Nature of distributed feed

- **Lamb fed exclusively on mother’s milk for 60 days minimum**
- **Silage prohibited for lambs**
- **Formula milk prohibited**
- **List of authorized feed**

### Stocking rate

- **“< 1.4 LU/ha of the total forage area”**
- **No requirements**
- **≤ 1.4 LU/ha**
- **“≥ 0.2 ha of pasture or rangeland per goat”**
- **“≤ 10 goats/ha of are set aside to feed goats (forage area, cereals, or rangelands”**
- **No requirements**
- **No requirements**
### Grazing Requirements

**Ewe Feed**
- "Based on grazing at the minimum from spring to autumn"
- "The areas grazed are meadows, rangelands and/or summer mountain pasture"

**Transhumance**
- "Adult animals can alternate periods of full-time outdoor, full-time sheep house and mixed outdoor-sheep house"

**Altitude Restrictions**
- "No-grazing" prohibited
- "Alternating pasture/stable: summer (April/May to Nov/Dec) during which animals freely graze (4 months minimum)"

**Permanent Claustration**
- "Permanent claustration of animals prohibited"

**Grazing Requirements Based on Altitude**
- If alt < 800 m: grazing on rangelands at least 210 days/year
- If alt > 800 m: grazing on rangelands at least 180 days/year
- No requirements

**Keeping Animals in Stalls**
- "Keeping animals year round in stalls is prohibited. When grass is available, as soon as climate conditions allow, daily grazing is required"

**Additional Requirements**
- "When grass is available, base ration of dairy herd is composed mainly of grazed grass during 120 days minimum"
- "During this grazing period, complementary fodder feed must not exceed 3 kg/DM/cow/day on average in the herd"

### Breed

**Pure Prealp, Mourerous or Merinos sheep that can be bred with Ile de France, Charollais, Berrichon or Suffolk to produce meat**

- Caussenarde du Lot or F1 (Caussenarde x Ile de France) ewe cross bred for meat
- Aubrac
- Mother Aubrac x Father Charolais
- Alpine, Saanen, Rove or crossbreeding of these three breeds
- Alpines, Saanen or crossbreeds of these two
- Lacaune

**French Simmental or Aubrac**
- (Production limited to 6000 litre/cow/year)
